

Starter Unit

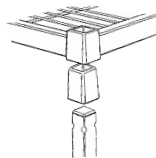

Add On Unit

Commercial Grade Wire Storage Shelving Systems

Supports 600 lbs. per shelf!

FEATURES

- Strong steel shelving units may be used individually or combined to create a unique storage system
- Heavy duty starter shelves support 600 pounds each
- Wire design provides high visibility and dust free shelves
- Modularity allows use in virtually any space
- In stock in Gray and Black epoxy finishes

Assembles in minutes with no hardware or tools!

Simply slide a nylon adaptor down the post. Then with a twist of the wrist, it locks onto a post notch. Posts are notched every 2". The more weight applied to the shelf, the tighter the shelf wedges onto the post.

Four Shelf Add-On Units

Add on units consist of four shelves, two posts, and two add on clips per shelf. Use in corners or for continuous runs of shelving. Use as many add on units as needed to complete your shelving plan. In stock in the same sizes as starter units.

Four Shelf Starter Units

Begin a run of shelving with a starter unit consisting of four shelves and four posts. Then hook an add on unit to it in length or turn at a 90° angle. Units 18"D x 72"H, in stock in widths of 36" and 48".
